local

MISSOULA--

A special two-week course for nursing students will be offered during the first University of Montana summer session if enough interest is shown.

The course is called human development (Home Economics 265) and is required of students in the nursing program. The class might not be offered next year on campus, but if enough people are interested, it will be offered in June.

Interested people should call 243-6515 by May 19 or come to the MSU School of Nursing, Missoula extended campus, at 612 Eddy.

UM READING LAB GETS DONATION

MISSOULA--

The Champion International Council recently donated \$450 toward the purchase of an oculograph--reading eye camera--for the UM Center for Continuing Education's Reading Institute.

The instrument records eye movements from reading on heat-sensitive paper--much like an EEG or EKG. The results can be used for diagnosis of reading problems and evaluation of progress.

Total cost of the instrument is \$2,100, and other sources of funding must be found to make the final purchase.
